21st November 2016

Dear Belinda,

It's disappointing to note that the response to my letter of 20th October 2016 was from John Conneely by email and not from you as Fund Manager, to whom all our correspondence is addressed, and that there has been no attempt to set up a meeting to address the two outstanding issues which were first raised in correspondence with you on 15th October 2015 (copy attached) following the 2015 AGM.

I also note that either John or yourself have been in direct contact with Joyce Farrell, one of ESB's representatives on the RSA/ESB Joint Forum. The agenda for this Forum is always agreed between the two parties at each meeting and not with/by 3rd parties. As already stated there is a meeting scheduled for December with a very packed agenda and the progress made at this meeting will determine what the agenda will be for the next meeting, likely to be scheduled for January, as unfinished business will be carried forward to that meeting.

In view of the length of time that these two issues, i.e. Reserves & Members cover abroad, are outstanding I would appreciate that you treat them with the urgency that they deserve and revert to me with proposed meeting dates sooner rather than later.

Yours sincerely,

Michael MacNamara,
Hon Secretary,
National Executive,
